

# Free TV+

## ✓ What is Free TV+?

Free TV+ is a unique feature that enables you to play & enjoy FREE web media contents like Youtube and other free (but premium) contents from various internet websites such as documentary and more.

One of the Most Powerful thing is supporting recording and downloading contents from the web during you are watching or selected.

## ✓ Free TV+ concept diagram

- ✓ Various Free Web contents, such as YouTube(default), You Porn, Earth Touch, SVT Play  
You can select for watching and downloading freely on the list.

## ✓ You Tube

Most popular video-sharing website in the world You can watch the world's video in your room freely.

You can choose prefer **category** in the contents list and **search**.

## ✓ You Porn and Other Contents

Of course, We are supporting **Parental lock** for each contents.

\* *Available Contents will be increased by add-on feature continually.*

## ✓ USB or HDD

Any storage is not required while playing basically. It needs only for downloading of contents.

## ✓ Notice

1. Ethernet connection.

STB (Set-top-box) should be connected with Ethernet cable, with proper network settings. (Please refer to the menu of "Network setting", and its operating instructions).

2. Downloading contents.

Purpose of downloading and recording the individual video clips from the FreeTV+ featured sites should be strictly limited to personal use & viewing ONLY.

And we urge you to please respect all the rights of the copyright holders of any materials you get there

## ✓ S/W

When this new s/w is released in the mid of June with Free TV+, market demands for our products will be explosive. So, we would highly recommend you to procure more and more stock before it is released. We are ready to support our S/W fully.
